

We Deliver The Best!

Transit Sales International (TSI) specializes in supplying quality, used transit buses to customers in the U.S., Canada, Mexico and points throughout the World. Our buses are procured only from reputable U.S. sources known for their thorough, ongoing maintenance programs. Most of our inventory comes from the Western U.S. where the mild climate leaves these buses in outstanding condition and ready to be put back into service in a number of applications. From 60' articulating buses to 22' shuttles and everything in between, we have the used transit buses that fit your needs.

Transit Sales International and its affiliated companies have been serving the bus industry for over 50 years. TSI knows all aspects of the bus industry from fixed route service to long and medium-term bus leasing, to complete remanufacturing and bus sales.

Family owned and operated with four generations of experience to back it, TSI puts customer service and satisfaction first. With over 1,000 buses in inventory, we have the world's largest selection of makes and models. Many of our buses are wheelchair lift equipped and most have air conditioning. We have the means to help you meet all of your transportation needs.

Shuttle Bus Leasing began its operations over 30 years ago. SBL, previously known as Shuttle Bus Leasing, specializes in providing short to medium-term leases of high-quality transit shuttle buses for a wide range of applications. With multiple locations within the United States, SBL is able to provide leasing service to accommodate various transportation needs. SBL was a proud supplier to G4S, the U.S. Winter Olympics in 2002, and Vancouver Winter Olympics in 2010. You may also find our buses operating at national parks, construction sites, airports, university campuses,

tour operations and seasonally at many ski resorts and amusement parks around the country.

For over 27 years, Complete Coach Works has been the leading provider of reliable transportation solutions that meet the needs of our customers while providing world class products backed by superior services. Whether we are providing bus remanufacturing, interior rehabilitation, accident repair, or alternative fuel conversion, our team of over 350 experienced employees always strives for customer service and satisfaction first. Known for the ground-breaking all electric ZEPS Transit Bus (Zero Emission Propulsion System), Complete Coach Works has proven its dedication to quality and innovation that has made each job a success. In keeping with our customer-focused philosophy, we have had multiple inventive successes in field operations including the completion of a two-year contract for Puerto Rico AMA where a remote facility was established with a team of 75 specialists to complete the operation. Our proven accomplishments have met the needs of customers from all over North America's Transit Municipality Agencies including San Francisco MUNI, St. Louis Metro, and Indianapolis Indigo. Complete Coach Works has a demonstrated capability of performing any contract with the highest standards of quality and reliability to always meet every job with success.

The affiliated companies are active members and support numerous national and state associations, such as American Public Transportation Association, Canadian Urban Transportation Association, United Motor Coach Association, American Bus Association, California Transit Association, California Bus Association, Airport Ground Transportation Association and numerous other state associations and has a client relationship with the US Department of Commerce
