

LandRVs.com Company Profile

by Loretta Gromo

LandRVs.com is an exciting new Start-Up company that launched in September, 2016. This company is the latest addition to the "Share Economy" concept. In the last several years, companies offering "share housing" and "ride sharing" are opening new doors of money earning potentials. LandRVs will offer individuals with parking spaces on their property the opportunity to rent the space to RV travelers and earn income. Any bus conversion customer or RV owner with extra space can participate and earn extra money.

LandRVs.com connects Hosts with space for parking with RV/bus travelers that are looking for unique destinations. Hosts set all the parameters, such as length of stay, amenities available, and price when

listing their property. Guests will be able to search for accommodations online or using an App on their phone while traveling.

At this time we are seeking Hosts only because we are a new company and need to build up our inventory. It is projected that we will be ready to accommodate Guests in January, 2017. Our website is user friendly and ready to welcome Hosts.

We are forming a partnership with *Bus Conversion Magazine* because their readers may wish to be both a Host and a Guest on our website. Readers can put their parking spaces to work making money and find places to start while on the road! Check us out at LandRVs.com!
